About Robert

Robert L. Kane, DC, DABCT, FIACT began in the field of thermal imaging in 1990.

Dr. Kane acquired his training through the International Thermographic Society and achieved Diplomate level certification through the American Board of Clinical Thermography (ABCT). He also achieved Diplomate certification through the International Academy of Clinical Thermology (IACT) and was recognized as a “Fellow” by IACT for contributions to the field of thermal imaging. Dr. Kane furthered his knowledge of breast applications under the tutelage of Dr. William Hobbins, one of the world’s leading authorities.

Dr. Kane has previously served on the board of IACT and ABCT and currently provides high quality training for thermography technicians. He currently maintains a busy thermal imaging interpretation practice.
